Implementation and evolution of TPM in the world

Thursday, 15<sup>th</sup> November

Alternative organisation and management aimed at better integrating installations maintenance and operation into their design

Friday, 16<sup>th</sup> November

**Free session** (registration required)

Favouring the employment of over-60s despite the strain linked to maintenance jobs

Organised by Afim (French Association of Maintenance Engineers)

# Maintenance: the essential management fonction of companies' ressources

Tuesday, 13 <sup>th</sup> November			Building an appropriate maintenance policy		
10.00 a.m.	<b>Opening address, 10<sup>th</sup> International Maintenance Forum</b>		<b>Claude Pichot, Afim Chairman</b>		
10.05 a.m.	Afim / Bipe Observatory of Industrial Maintenance: evolution of the maintenance market as assessed at the end of 2006	Yearly review of economic data pertaining to the industrial maintenance market.	<b>Daniel Dunet, Bipe</b>		
11.00 a.m.	Outsourcing practices: feedback by service providers	Service delivery framework and performance evaluation: update on contract practices, keys to success, pitfall avoiding tips for service providers and their clients.	<b>Paul Garel, Endel</b>		
12.00 noon	Diagnosis, improvement and set up of a maintenance management system	Setting up an audit system for diagnosing shortfalls in the production of printed labels - Preparing the maintenance department certification.	<b>Lamia Goddi, La Griffe Textile (Tunisia)</b>		
01.00 p.m.	Lunch break				
01.30 p.m.	Interoperable brand e-catalogue: reducing management cost and error risk	Presentation of interoperable brand e-catalogue aims and process for industrial spares and components. Demonstration of tool: access to detailed data directly provided by manufacturers, search and selection of items through technical criteria, interchangeability reviews, access to design and maintenance documentation.	<b>Claude Pichot, Afim Chairman</b>		
02.15 p.m.	Interoperable brand e-catalogue: an international classification and characterisation standard for international eCl@ss products and services	Presentation of classification and characterisation tools (ontological tools) by European executives.	<b>Friedhelm Hausman, eCl@ss (Germany), Reinhard Pohn, Paradine (Austria)</b>		
03.00 p.m.	Interoperable brand e-catalogue: the support process used by a major prime contractor with service providers	Consumers' requirements for industrial spares and components. Benefits expected from the current project.	<b>Gérard Chaumont Renault</b>		
03.45 p.m.	Coffee break				
04.00 p.m.	Interoperable brand e-catalogue: how manufacturers and prime contractors can draw benefits from being parties to the e-catalogue process	Manufacturers' requirements for industrial spares and components. Benefits expected from the current project.	<b>Companies Legris (manufacturer)</b>		
04.45 p.m.	Interoperable brand e-catalogue: a community process towards a common victory	Round table with Afim, EDF, Renault, PSA, Schneider: review and perspectives.	<b>Representatives of companies</b>		
05.00 p.m.	End of Day 1 session				

Wednesday, 14 <sup>th</sup> November			Implementation and evolution of TPM in the world		
10.00 a.m.	Feedback on 20 years of TPM implementation in the world: evaluation, lessons learnt, perspectives	The Japan Institute of Plant Maintenance (JIPM), owner of the TPM brand name, is the promoter of and trainer in TPM throughout the world.	<b>Tsutomu Nakamura JIPM (Japan)</b>		
11.00 a.m.	Feedback on TPM implemented in the process industry	Issues addressed will include continuity of training for all players - including executives and engineers - involved in the TPM process implementation.	<b>Alain Strohl, Arcelor Mittal</b>		
12.00 noon	Feedback on TPM implemented in the field of agribusiness		<b>Geoffray Buneaux, Bonduelle</b>		
01.00 p.m.	Lunch break				
02.00 p.m.	Autonomous maintenance in transforming industries	Multi-source feedback on TPM 3 <sup>rd</sup> stage within the car industry in Central Europe.	<b>Ivan Masin, Consultant (Czech Republic)</b>		
03.00 p.m.	Feedback on TPM implemented in the manufacturing industry operating from different countries	Management of monitoring and control indicators through a Computerised Maintenance Management System (CMMS) in France, Russia and Brazil.	<b>Eric Maniez, Valéo/Carl International</b>		
04.00 p.m.	TPM: maintenance method or production system?	A review on the place of a TPM approach among other possible approaches aimed at optimising production systems.	<b>Jean Bufferne, TPM Consultant Trainer</b>		
05.00 p.m.	End of Day 2 session				

## Free session

Friday, 16 <sup>th</sup> November			Favouring the employment of over-60s despite the strain linked to maintenance jobs		
09.00 a.m.	Findings of the "Strain in maintenance jobs" review conducted by Afim with the support of the French Department of Employment		<b>Claude Pichot, Afim Chairman</b>		
10.00 a.m.	Perspectives on the evolution of strain generated by work conditions and the foreseeable extension of working life		<b>Jean-Claude Delgenes, Technologia - Health and Safety at Work</b>		
11.00 a.m.	Round table with trade union representatives and journalists				
12.00 noon	<b>10<sup>th</sup> International Maintenance Forum ends</b>				

Thursday, 15 <sup>th</sup> November			Alternative organisation and management aimed at better integrating installations maintenance and operation into their design		
10.00 a.m.	Feedback on the impact of a safety approach of maintenance interventions on the conduct of a project	Addressing safety of maintenance operations for the conduct of a reactor project at the Normandy plant distillate hydrocracking unit.	<b>Michel Dupré Total - HSE</b>		
11.00 a.m.	Organising maintenance for the 4,500 power converters distributed around the Cern particle accelerators	An approach to improving installations maintenance in collaboration with designers: safety, reliability, maintainability.	<b>Christophe Mugnier Cern (Switzerland)</b>		
12.00 noon	Identifying and grading potential causes of malfunctions during upstream design phases	Study phase and conduct of project - Recommendations for handling operations in the field of car industry.	<b>Maria Prudencia Goncalvez Martins, Instituto Politecnico de Braganca (Portugal)</b>		
01.00 p.m.	Lunch break				
02.00 p.m.	Addressing maintenance during the design phase of EDF plants	Managing and sharing collaborative engineering with an aim to provide for efficient cost-effective maintenance during the protracted periods of installations operation.	<b>Christian Meuwisse, EDF</b>		
03.00 p.m.	Improving support to new equipment through maintenance implemented in conjunction with CMMS	Collaborating with equipment providers and optimising documentation management through CMMS with a view to improving operational launch phases.	<b>Claude Gellet/Christophe Locatelli, Vicat</b>		
04.00 p.m.	Optimising the stock of strategic initially allocated spares	A decision support approach for managing the risk-to-cost balance in maintaining packaging lines in the field of pharmaceuticals.	<b>Xavier Ameye/Jean-Michel Guillemot, Assetsman Laurent Pontasse, Lilly France</b>		
05.00 p.m.	End of Day 3 session				

Payment must be enclosed with the registration form.

An invoice (registration confirmation) will be sent to you upon receipt of the registration form and payment.
