EUROMAINTENANCE AND MAINTENANCE NEXT

INTRODUCTION

EuroMaintenance, the largest European conference on maintenance has existed since 1972 and is an initiative of the EFNMS (European Federation of National Maintenance Societies) and organized by the Dutch Maintenance Society NVDO in 2023. Maintenance NEXT is the most important platform for industrial maintenance in the Benelux.

The largest European maintenance conference will be held in Rotterdam from 17 to 19 April 2023. At the same time, Rotterdam Ahoy will be hosting the largest technology and maintenance exhibition in the Benelux from 18 to 20 April 2023: Maintenance NEXT.

LARGEST EUROPEAN MAINTENANCE CONFERENCE, EUROMAINTENANCE, COMES TO ROTTERDAM AHOY IN 2023

The largest European maintenance conference will be held in Rotterdam from 17 to 19 April 2023. Covid-19 threw a spanner in the earlier plans, but the Dutch Maintenance Society (NVDO), the European Federation of National Maintenance Societies (EFNMS) and Rotterdam Ahoy will combine forces again. At the same time, Rotterdam Ahoy will be hosting the largest technology and maintenance exhibition in the Benelux from 18 to 20 April 2023: Maintenance NEXT. During this period, this powerful combination will make Rotterdam the European meeting place for maintenance professionals in the Asset Management Industry.

"EuroMaintenance (EM) is the most important activity of EFNMS, and it is one of the most important conferences in the world in the Maintenance domain. This time, EM is organized by NVDO on 17-19 of April 2023.

The quality of the event is excellent in all aspects: First, many top-level speakers from world-wide are going to present the state-of-the-art in Maintenance. Additionally, many very interesting workshops in the topics of Human factor, Safety, Sustainability, Smart industry, and Asset Performance Management are going to take place. Of course, the EFNMS workshops will be also present. The fact that the event takes place at the new convention center of Rotterdam Ahoy is an important guaranteed factor for the success of the event. Not only the 24 national societies members of EFNMS, but everyone in the maintenance domain world-wide is looking forward for this great event in Rotterdam!"

Cosmas Vamvalis
EFNMS Chairman

Coming year 2023 I will be a very proud chairman of the NVDO. In collaboration with Ahoy Rotterdam and the EFNMS the NVDO will receive thousands of maintenance professionals during the big EuroMaintenance congress in combination with the Maintenance NEXT Exhibition.

I am convinced that all workshops and presentations will be of an excellent level. Our NVDO office, together with a team of top professionals are already working hard to make this an unforgettable event.

I look forward to welcome you in person in April next year.

Bas Kimpel
Chairman NVDO

FIRST PARTICIPANT EUROMAINTENANCE

The first edition of the European Maintenance Battle took place during the National Asset Management Congress of the NVDO. The battle was won by Ron van Empel (Royal HaskoningDHV). He performed best and with that he won an entrance ticket for EuroMaintenance and is therefore the first registered participant. Congratulations!

www.euromaintenance.net

At Rotterdam Ahoy we love nothing more than organizing wonderful events. We are therefore eager to get back to work with everything on the agenda. A high quality congress such as EuroMaintenance, with international allure and top speakers, is really adding value to that agenda. Because of the corona pandemic, not only we, but the whole of Europe had to wait too long for this essential congress for the sector. The fact that it is taking place at the same time as our own exhibition, Maintenance NEXT, strengthens both initiatives.

We are continuing our earlier plans from 2021 to establish the largest maintenance platform in Europe. In the third week of April 2023, we will bring together the entire chain of maintenance professionals and treat them to inspiring presentations, workshops and demonstrations. That is why I am eagerly looking forward to the renewed collaboration to make Rotterdam 'The maintenance capital of 2023'.

General Manager Exhibitions & Events at Rotterdam Ahoy

EUROMAINTENANCE 2023; BECOME A PARTNER

The largest European maintenance congress will take place from 17 to 19 April 2023 in the brand new state-of-the-art, Rotterdam Ahoy Convention Centre (RACC). Visitors will be treated to three full days of valuable presentations, workshops and demonstrations.

At the same time the leading maintenance and technology exhibition in the Benelux - Maintenance NEXT - will be held in Rotterdam Ahoy. The combination of EuroMaintenance and Maintenance NEXT will make Rotterdam the most important meeting place for maintenance professionals.

Asset Management at its best is the theme for this edition of EuroMaintenance. Business leaders will share their vision on developments and the future of the industry and best practices will be showcased. More than 40 workshops will focus on the main themes in Asset Management: Smart industry, Sustainability, Asset Performance Management, Human Factor and Safety. In addition to the workshops, international top speakers take the stage to share their knowledge and inspire.

EuroMaintenance consists of various components, such as the conference and the workshops. It is obvious that we have chosen the Rotterdam Ahoy Convention Centre, as congress visitors can also visit the Maintenance NEXT exhibition and learn about the innovations and the people behind the innovations. For the exhibitors it is interesting to meet a new, high level international audience," says Ellen den Broeder, NVDO General Manager. The combination of the NVDO, the EFNMS and Rotterdam Ahoy guarantees a high-quality international congress that can finally take place after the pandemic and years of preparation. Den Broeder; "We are really looking forward to connecting the maintenance world in this way".
